INDEX OF AUTHORS

ARTHUR, DON R. *Ixodes hoogstraali*, a new species of tick from Yemen. (With 11 Figures in the Text), 128

ARTHUR, DON R. New species of ticks (*Ixodes*) associated with small mammals. (With 31 Figures in the Text), 131

BAILEY, L. The infection of the ventriculus of the adult honeybee by *Nosema apis* (Zander). (With Plate IV and 3 Figures in the Text), 86

BEER, JAMES R. *See* COOK, EDWIN F.

BISHOP, ANN. Problems concerned with gametogenesis in Haemosporidiidea, with particular reference to the genus *Plasmodium*, 163

COOK, EDWIN F. and BEER, JAMES R. The louse populations of some cricetid rodents. (With 4 Figures in the Text), 409

CORBETT, M. PAULINE. Occurrence of two species of *Crepidostomum* in brown trout (*Salmo trutta* L.) from north-east Ireland, with special reference to *Crepidostomum metoecus* Braun 1900, 186

CROFTON, H. D. Nematode parasite populations in sheep on lowland farms. II. Worm egg counts in lambs. (With 9 Figures in the Text), 99

DASGUPTA, B. *See* RAY, H. N.

DAVIES, A. MICHAEL. *See* ELIAKIM, M.

DE OLIVEIRA, M. XAVIER and MEYER, H. *Plasmodium gallinaceum* in tissue culture. Observations after one year of cultivation. (With Plate I), 1

ELIAKIM, M. and DAVIES, A. MICHAEL. The complement-fixation test in Bilharziasis. II. Preparation and preservation of antigens from *Schistosoma mansoni* worms extracted in Coca's solution, 189

EVANS, G. OWEN. A review of the Laelaptid paraphages of the Myriapoda with descriptions of three new species (Acarina: Laelaptidae). (With 30 Figures in the Text), 352

FRANKLAND, HELGA M. T. The life history and bionomics of *Diclidophora denticulata* (Trematoda: Monogenea). (With 21 Figures in the Text), 313

GOODCHILD, A. J. P. The bacteria associated with *Triatoma infestans* and some other species of Reduviidae, 441

HAWKING, FRANK. *See* WEBBER, WINFRITH A. F.

HAWKING, FRANK and WEBBER, WINFRITH A. F. *Dirofilaria aethiops* Webber, 1955, a filarial parasite of monkeys: II. Maintenance in the laboratory. (With 1 Figure in the Text), 378

INGLIS, WILLIAM G. On the family Parasubuluridae van den Berghe & Vuylsteke, 1938, and the subfamily Numidicinae López-Neyra, 1945 (Nematoda). (With 9 Figures in the Text), 431

KETTLE, D. S. and UTSI, M. N. P. *Hypoderma diana* (Diptera, Oestridae) and *Lipoptena cervi* (Diptera, Hippoboscidae) as parasites of reindeer (*Rangifer tarandus*) in Scotland with notes on the second-stage larva of *Hypoderma diana*, 116

LAVOIPIERRE, M. M. J. On two new species and new records of Acarina mainly from the Ethiopian region. (With 9 Figures in the Text), 121

MCCONNACHIE, ELSPETH W. Studies on *Entamoeba invadens* Rodhain, 1934, *in vitro*, and its relationship to some other species of *Entamoeba*. (With 13 Figures in the Text), 452

MAHON, JUNE. Contributions to the genus *Paradilepis* Hsü, 1935. (With 16 Figures in the Text), 63

MELLANBY, HELEN. The identification and estimation of acetylcholine in three parasitic nematodes (*Ascaris lumbricoides*, *Litomosoides carinii*, and the microfilariae of *Dirofilaria repens*). (With 6 Figures in the Text), 287

MENDONÇA, I. DE ANDRADE. *See* MEYER, H.

MEYER, H. *See* DE OLIVEIRA, M. XAVIER

MEYER, H. and MENDONÇA, I. DE ANDRADE. Electron microscopic observations of Toxoplasma 'Nicolle et Manceaux' grown in tissue cultures (first note). (With Plate VII), 449

MUKERJI, D. and SEN-SARMA, P. Anatomy and affinity of the elephant louse *Haematomyzus elephantis* Piaget (Insecta: Rhyncophthiraptera). (With 40 Figures in the Text), 5

NEAL, R. A. and VINCENT, PATRICIA. Strain variation in *Entamoeba histolytica*. I. Correlation of invasiveness in rats with the clinical history and treatment of the experimental infections, 152

QADRI, SYED SHAMSUDDIN. The morphology of *Trypanosoma striati* n.sp., from an Indian fresh-water fish. (With 12 Figures in the Text), 79

RADFORD, CHARLES D. Some new and little-known mites of the genus *Myocoptes* Claparède (Acarina: Listrophoridae). (With 16 Figures in the Text), 275.

RAY, H. N. and DASGUPTA, B. Observations on the structure and the nature of '*NR* bodies' found in the testes of bed-bug. (With Plate VI), 421

REES, GWENDOLEN. The adult and *Diplostomulum* stage (*Diplostomulum phoxini* (Faust)) of *Diplostomum pelmatoides* Dubois and an experimental demonstration of part of the life cycle. (With Plate V and 10 Figures in the Text), 295

SARWAR, M. M. On a new lungworm, *Pneumostrongylus ovis* Sarwar, 1953, and some remarks on *Varestrongylus* species from sheep and goats in Pakistan. (With 3 Figures in the Text), 426

SEN-SARMA, P. *See* MUKERJI, D.

SMITH, KENNETH M. Intranuclear changes in the polyhedrosis of *Tipula paludosa* (Meig.). (With Plates VIII–XI), 482

SPRENT, J. F. A. On the invasion of the central nervous system by nematodes. I. The incidence and pathological significance of nematodes in the central nervous system, 31

SPRENT, J. F. A. On the invasion of the central nervous system by nematodes. II. Invasion of the nervous system in ascariasis. (With Plates II and III and 5 Figures in the Text), 41

STEWARD, J. S. Anthelmintic studies: I. A controlled critical entero-nemacidal test, 232

STEWARD, J. S. Anthelmintic studies: II. A double entero-nemacidal anthelmintic test covering a wide range of activities. (With 1 Figure in the Text), 242

STEWARD, J. S. Anthelmintic studies: III. A taeniacidal testing technique, 255

STEWARD, J. S. Anthelmintic studies: IV. The loss of efficiency by division of the dose, 266

THEODOR, O. On the genus *Eucampsipoda* Kol. and *Dipseliopoda* n.g. (Nycteribiidae, Diptera). (With 53 Figures in the Text), 195

THURSTON, JUNE P. Observations on the course of *Eperythrozoon coccoides* infections in mice, and the sensitivity of the parasite to external agents. (With 5 Figures in the Text), 141

TILL, W. *See* ZUMPT, F.

UTSI, M. N. P. *See* KETTLE, D. S.

VINCENT, PATRICIA. *See* NEAL, R. A.

WALKER, JANE B. *Rhipicephalus pulchellus* Gerstäcker 1873: a description of the larva and nymph with notes on the adults and on its biology. (With 7 Figures in the Text), 95

WEBBER, WINFRITH A. F. *Dirofilaria aethiops* Webber, 1955, a filarial parasite of monkeys: I. The morphology of the adult worms and microfilariae. (With 12 Figures in the Text), 369

WEBBER, WINFRITH A. F. *Dirofilaria aethiops* Webber, 1955, a filarial parasite of monkeys: III. The larval development in mosquitoes. (With 16 Figures in the Text), 388

WEBBER, WINFRITH A. F. and HAWKING, FRANK. The filarial worms *Dipetalonema digitatum* and *D. gracile* in monkeys. (With 7 Figures in the Text), 401

WEBBER, WINFRITH A. F. *See* HAWKING, FRANK

WILLIAMS, HOLMAN E. Studies on the bovine filariid *Setaria cervi* (Rudolphi, 1819). (With 12 Figures in the Text), 56

ZUMPT, F. and TILL, W. The mange-causing mites of the genus *Psorergates* (Acarina: Myobiidae) with description of a new species from a South African monkey. (With 7 Figures in the Text), 269

INDEX OF SUBJECTS

Acarina, on two new species and new records of, mainly from the Ethiopian region, 121
Acetylcholine, identification and estimation of, in three parasitic nematodes (*Ascaris lumbricoides*, *Litomosoides carinii*, and the microfilariae of *Dirofilaria repens*), 287
Anatomy and affinity of the elephant louse *Haematomyzus elephantis* Piaget (Insecta: Rhyncophthiraptera), 5
Anthelmintic studies: I. A controlled critical entero-nemacidal test, 232
Anthelmintic studies: II. A double entero-nemacidal anthelmintic test covering a wide range of activities, 242
Anthelmintic studies: III. A taeniacidal testing technique, 255
Anthelmintic studies: IV. The loss of efficiency by division of the dose, 266

Bacteria associated with *Triatoma infestans* and some other species of Reduviidae, 441
Bed-bug, '*NR* bodies' found in testes of, 421
Bilharziasis, the complement-fixation test in, II. Preparation and preservation of antigens from *Schistosoma mansoni* worms extracted in Coca's solution, 189

Crepidostomum, occurrence of two species of, in brown trout (*Salmo trutta* L.) from north-east Ireland, with special reference to *Crepidostomum metoecus* Braun 1900, 186

Diclidophora denticulata (Trematoda: Monogenea), life history and bionomics of, 313
Dipetalonema digitatum and *D. gracile*, the filarial worms, in monkeys, 401
Diplostomum pelmatoides Dubois, the adult and *Diplostomulum* stage (*Diplostomulum phoxini* (Faust)) of, and an experimental demonstration of part of the life cycle, 295
Dirofilaria aethiops Webber, 1955, a filarial parasite of monkeys. I. The morphology of the adult worms and microfilariae, 369
Dirofilaria aethiops Webber, 1955, a filarial parasite of monkeys. II. Maintenance in the laboratory, 378
Dirofilaria aethiops Webber, 1955, a filarial parasite of monkeys. III. The larval development in mosquitoes, 388

Electron microscopic observations of Toxoplasma 'Nicolle et Manceaux' grown in tissue cultures (first note), 449
Elephant louse *Haematomyzus elephantis*, anatomy and affinity, 5
Entamoeba histolytica, strain variation in. I. Correlation of invasiveness in rats with the clinical history and treatment of the experimental infections, 152
Entamoeba invadens Rodhain, 1934, *in vitro*, studies on, and its relationship to some other species of *Entamoeba*, 452
Eperythozoon coccoides infections in mice, observations on the course of, and the sensitivity of the parasite to external agents, 141
Eucampsipoda Kol., on the genus, and *Dipselipoda* n.g. (Nycteribiidae, Diptera), 195

Filarial worms, *Dipetalonema digitatum* and *D. gracile*, in monkeys, 401
Fish, *Trypanosoma striati* n.sp. from, 79

Haematomyzus elephantis Piaget (Insecta: Rhyncophthiraptera) anatomy and affinity of the elephant louse, 5
Haemosporidiidea, problems concerned with gametogenesis in, with particular reference to the genus *Plasmodium*, 163
Honeybee, infection by *Nosema apis*, 86
Hypoderma diana (Diptera, Oestridae) and *Lipoptena cervi* (Diptera, Hippoboscidae) as parasites of reindeer (*Rangifer tarandus*) in Scotland with notes on the second-stage larva of *Hypoderma diana*, 116

Ixodes hoogstraali, a new species of tick from Yemen, 128

Laelaptid paraphages of the Myriapoda with descriptions of three new species (Acarina: Laelaptidae), a review of the, 352
Life history and bionomics of *Diclidophora denticulata* (Trematoda: Monogenea), 313
Louse populations of some cricetid rodents, 409
Lungworm, on a new, *Pneumostrongylus ovis*, Sarwar, 1953, and some remarks on *Varestrongylus* species from sheep and goats in Pakistan, 426

Mange-causing mites of the genus *Psorergates* (Acarina: Myobiidae) with description of a new species from a South African monkey, 269
Mice, infection by *Eperythrozoon coccoides*, 141
Mites of the genus *Psorergates* causing mange in monkey, 269
Mites, some new and little-known, of the genus *Myocoptes* Claparède (Acarina: Listrophoridae), 275
Monkeys, filarial worms in, 401
Morphology of *Trypanosoma striati* n.sp., from an Indian fresh-water fish, 79
Myocoptes Claparède (Acarina: Listrophoridae), some new and little-known mites of the genus, 275

Nematode parasite populations in sheep on lowland farms. II. Worm egg counts in lambs, 99
Nematodes, on the invasion of the central nervous system by. I. The incidence and pathological significance of nematodes in the central nervous system, 31
Nematodes, on the invasion of the central nervous system by. II. Invasion of the central nervous system in ascariasis, 41
Nematodes (*Ascaris lumbricoides*, *Litomosoides carinii*, and the microfilariae of *Dirofilaria repens*) identification and estimation of acetylcholine in three parasitic, 287
Nosema apis, the infection of the ventriculus of the adult honeybee by, 86
'*NR* bodies' found in the testes of bed-bug, observations on the structure and the nature of, 421

Paradilepis, Hsü, 1935, contributions to the genus, 63
Parasubuluridae van den Berghe & Vuylsteke, 1938, on the family, and the subfamily Numidicinae López-Neyra, 1945 (Nematoda), 431
Plasmodium gallinaceum in tissue culture. Observations after one year of cultivation, 1
Pneumostrongylus ovis, Sarwar, 1953, on a new lungworm, and some remarks on *Varestrongylus* species from sheep and goats in Pakistan, 426
Polyhedrosis of *Tipula paludosa*, intranuclear changes in, 482
Psorergates (Acarina: Myobiidae), the mange-causing mites of the genus, with description of a new species from a South African monkey, 269

Review of the Laelaptid paraphages of the Myriapoda with descriptions of three new species (Acarina: Laelaptidae), 352
Rhipicephalus pulchellus Gerstäcker, 1873; a description of the larva and nymph with notes on the adults and on its biology, 95

Setaria cervi (Rudolphi, 1819), studies on the bovine filariid, 56

Ticks (*Ixodes*) new species of, associated with small mammals, 131
Tipula paludosa (Meig.), intranuclear changes in the polyhedrosis of, 482
Triatoma infestans, the bacteria associated with, and some other species of Reduviidae, 441
Trypanosoma striati n.sp., the morphology of, from an Indian fresh-water fish, 79
Toxoplasma 'Nicolle et Manceaux', grown in tissue culture (first note), electron microscopic observations of, 449
